

## Bermuda Fire & Rescue Service

# Class B Medium Duty Fire Pumps Minimum Mandatory Fire Fighting and Rescue Equipment Requirements

ANNEX E: Mandatory Firefighting and Rescue Equipment Requirements

RFP: Class B Medium Duty Fire Pumpers

Ref: BFRS 2026-001

## Bidder Compliance Schedule

Each Proponent shall complete the following Bidder Compliance Schedule and include it in its proposal submission. The Proponent shall indicate whether it complies with each requirement, identify the proposed make and model where applicable, state the quantity to be supplied, and describe any exception, exclusion, deviation, or proposed equivalent in the comments column.

Ref.	Requirement Summary	Comply (Yes/No)	Proposed Make/Model	Qty.	Comments / Exceptions / Equivalents
4	Complete appliance delivered with all required equipment furnished, installed or mounted, secured, and ready for operational acceptance.				
General-1	All mandatory minimum equipment included in the scope of supply unless expressly accepted in writing as owner-furnished equipment.				
3	Each proposed equivalent or substitute item clearly identified and supported by sufficient technical documentation.				
5	Storage and mounting arrangement provide safe, secure, orderly, and rapid access to all required equipment.

	and infrastructure access.				
<b>Specialist-4</b>	Command support packs, toolboxes, specialist packs, and ancillary operational kits required as part of the minimum deployment standard.				

### Exceptions and Deviations Schedule

The Proponent shall list in this schedule every exception, exclusion, deviation, clarification, qualification, or proposed equivalent applicable to its proposal. Each entry shall be cross-referenced to the relevant section, clause, or compliance schedule reference number. If the Proponent submits no entries in this schedule, the Bermuda Fire & Rescue Service may interpret the proposal as fully compliant with the requirements stated in this Request for Proposals.
