RETAIL SALES INDEX

LOCAL RETAIL SALES

Sales Volume Increased 7.9 Per Cent

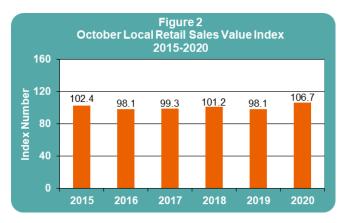

After adjusting for the retail sales rate of inflation, measured at 0.8 per cent in October, the overall volume of retail sales increased 7.9 per cent when compared to October 2019. This growth was attributed mostly to increased spending on-island by

residents. In value terms, retail sales rose 8.8 per cent to an estimated \$99.5 million.

Six of the seven retail sectors recorded higher sales volumes with Motor Vehicle Stores recording the largest volume increase of 21.2 per cent.

Excluding Sundays, there were 27 shopping days which was the same as October 2019.

The Retail Sales Index (RSI) is based on a matched sample of reporting local retail stores. The sales data are collected from these stores via a monthly mail survey.

NOTE: Data on selected overseas declarations have been expanded as of December 2018 to show categories that represent a combination of goods purchased directly from overseas, online shopping, gifts, etc. In September 2019, the total selected overseas declarations and annual percentage change were added.

Motor Vehicle Stores

The Motor Vehicle Stores sales volume increased by 21.2 per cent due mostly to an increase in the number of cars sold. The value of sales receipts increased 19.2 per cent when compared to October 2019.

All Other Store Types

During October 2020, the sales volume for the All Other Stores Types rose 9.5 per cent. In value terms, sales for this sector increased 11.7 per cent. The value of sales for marine and boat suppliers was 36.4 per cent higher reflecting increased sales of boats and boating accessories. The sales value of furniture, appliances and electronics grew 19.2 per cent due to increased home renovations and upgrades. The sales value for pharmacies rose 7.6 per cent due mostly to growth in prescription pharmaceutical sales. In contrast, gross receipts from the sale of miscellaneous goods decreased 3.8 per cent.

Food and Liquor Stores

Year-over-year, the sales volume of Food and Liquor Stores increased 7.2 and 17.7 per cent, respectively. In value terms, the sales value for Food Stores rose 11.5 per cent while Liquor Stores rose 20.7 per cent. The higher sales value was attributed partly to the increases in prices for food and alcohol of 3.6 percent and 2.6 per cent respectively, as well as more on-island spending by residents.

Building Material Stores

The volume of sales for Building Material Stores increased 5.1 per cent. In value terms, sales revenue increased 5.2 per cent when compared to October 2019. The growth in sales was associated mostly with contract sales for construction projects.

Service Stations

The volume of sales for Service Stations increased 0.1 per cent year-over-year. The value of sales for Service Stations declined 7.6 per cent, influenced by a 7.7 per cent decrease in the price of fuel during October 2020.

Apparel Stores

The sales volume for Apparel Stores decreased 11.9 per cent in October 2020 due partly to increased online purchases of clothing from overseas retailers and lack of resident and tourist purchases. In value terms, sales for Apparel Stores fell 11.1 per cent.

Selected Overseas Declarations (Value)*

Year-over-year, imports via courier increased \$3.3 million to \$14.7 million due to more imports of clothing, footwear and vehicle parts. Imports by households via sea rose \$4.0 million to \$5.5 million as a result of higher imports of furniture and medicaments. Limited commercial flights during October 2020 resulted in declarations by returning residents falling \$3.7 million to \$1.4 million. Imports via the Bermuda Post Office decreased \$0.1 million to \$0.4 million.

¹ Index numbers are subject to revisions

² Includes household supplies but excludes alcoholic beverages

⁴ Adjustments are not made for a 4/4/5 calendar month

⁵ The yearly series reflect annual changes.

³ Does not include sales to bars, clubs, hotels and restaurants

^R Represents revised

EXPLANATORY NOTES

The RSI was first developed in 1982. It is a key economic indicator used to assess the current performance of sales activity in the local retail sector of the economy.

The RSI is a self-weighting index. This means that stores reporting a large value of sales have a greater impact on the movement of the index than stores reporting a low level of sales activity.

The RSI serves to:

- measure monthly and annual movements of retail sales
- 2) provide an estimated gross turnover of sales in the local retail sector
- act as a barometer of change in the level of demand for both the domestic and tourist markets

The index is structured into seven broad sectors:

- Food Stores
- Liquor Stores
- Motor Vehicle Dealers
- Service Stations
- Building Materials
- Apparel Stores
- All Other Store Types

Total retail stores across the seven sectors represent roughly 70% of all retail activity on the Island. The base period 2015 recorded a gross turnover in retail sales of \$1.1 billion.

Retail outlets that participate in the retail sales survey and trade in similar types of goods are grouped into these seven sectors. It is important to note that sector classifications are not interchangeable with commodity classifications. This is because most retail outlets sell several kinds of commodities. The sector classification reflects generally the individual commodity or the commodity group, which is the <u>primary</u> source of the establishment's receipts, or some mixture of commodities, which characterizes the establishment's business.

CONCEPTS AND DEFINITIONS

Base Period

This is the time period used as a reference point for measuring the shift in the value of retail sales. The base period for the Bermuda RSI is 2015.

Estimated Gross Turnover

Estimated gross turnover is the total value of retail sales generated in the retail sector. It is calculated by applying the all-items index number for the current month to the average monthly sales figure determined in the base year.

Gross Sales

Gross sales (volume and value) are sales for which no deductions have been made for the return of merchandise, allowances and discounts.

Retail Establishment

Retail trade is the sector of the economy that includes establishments that are engaged in the sale of merchandise for personal or household consumption and in the rendering of services that are incidental to the sale of the merchandise.

Selected Overseas Declarations

Overseas declarations reflect the value of goods declared, whether for personal or business use, by returning residents via the airport, imports via couriers, imports via the Bermuda Post Office and the value of non-commercial imports by households via sea.

Value Sales

The dollar value of a quantity of goods and services sold for cash or credit. Sales include the amounts received from customers for: immediate and layaway purchases; rentals; installations; maintenance; repairs and alterations.

Volume Sales

The dollar value of a quantity of goods and services sold at current retail market prices adjusted to eliminate the effect of price change.
