

Childcare Connections

Adult, Child and Infant First Aid & CPR

At least one person working in a child care setting must have a valid **First Aid & CPR** certification and be on site at all times. Having hands-on, practical skills training allows you to practice, improve and ensure proper technique under the guidance of an expert.

Effective June 30th 2025 we will no longer accept certificates from an overseas entity unless a worker is coming from another country.
