

GOVERNMENT OF BERMUDA
Ministry of Public Works and Environment

May 1, 2026

Dear Proponents,

Ref: 44-28-75-04-P Swing Bridge Replacement- The Engineer

This Addendum #1 contains (3) pages including this front page. The following addendum supersedes information contained in the RFP to the extent referenced. This addendum forms part of the RFP documents and will be subject to all of the conditions set out in the contract.

The following Questions and Responses are summarized from the Pre-Bid conference call, held on April 29th.

PART 1 – Questions and Responses

	Question	Response
1.0	Do you know where fabrication would take place?	No. we do not know yet. However, trip costs associated with witnessing critical stages of fabrication in locations different than Bermuda will be considered variations. No need to include an allowance on the Pricing Schedule.
2.0	Is there a preference for where would fabrication take place?	No. As long as the specification can be met, we do not have a preference. The Design was based on UK Standards, so fabricators in UK would be more familiar with them. There are advantages to the contractor if locations closer to the Atlantic Ocean are chosen in terms of ease of transportation.
3.0	Will the Design Team have an on site presence?	Details are not finalised, but it is expected that one person on the Design Team will have on-site presence throughout the construction of the new bridge.
4.0	How many people from The Engineer Team are required to be on site?	We believe 1 person on site would be sufficient, but we would like to give the Proponents the flexibility to plan their team and justify their assumptions. The Engineer's site representative may change during the works depending on the project needs if this is considered beneficial to the project.

5.0	Where can we find the list of remaining design tasks that would be the responsibility of the Contractor?	The list of remaining design tasks can be found under Section 2.1 (Design Status) of the Particular Specification.
6.0	Does the Contractor Designer need to sign all M&E drawings?	The contractor's designer will need to include in their signed design certificates for the items they designed themselves. They would only be responsible for the outstanding design tasks or any changes they propose and that are accepted. An Independent Check Certificate is also required for all contractor design tasks.
7.0	Does the Engineer need to pay for access to Procore (Document control software)	No. the Government of Bermuda will pay for the Procore license and will provide access to the Contractor, The selected Engineer and any relevant parties. The government will also pay for 10 hours of training.
5.0	Will you make the list of Registered Proponents public?	<p>The Government will <u>not</u> be sharing the details of registered proponents.</p> <p>There is a Meet-and-Greet event on May 8th with Registered General Contractors and potential subcontractors local, or foreign. This is an appropriate opportunity for proponents and contractors to share their details with each other, if they wish to do so. Proponents will be required to undertake their own research and due diligence on contractors and vice versa. The Government of Bermuda, as the client, will remain removed from such discussions.</p> <p>Additionally, the Government has an RFI open to gather information from companies interested in participating as trade specialists during the construction process of the Swing Bridge Replacement. Responses and information gathered during this RFI will be shared with registered proponents of the Construction RFP. The intended purpose of the RFI is to link registered proponents to locally available resources, however it is not restricted to local businesses. Any specialist company (ie erection specialist, hydraulic specialist, heavy fabricators) could submit their information through the RFI, and it will be disseminated to <u>all</u> registered proponents of the RFP.</p>

		The Trade Specialist RFI can be found here: https://www.gov.bm/procurement/rfi-44-28-75-04-o-swing-bridge-replacement-trade-specialists
