Public Notice 17 – Supplemental 4
Bermuda Customs Declaration Guidelines: BCD Type - ADJUSTMENTS
04th March, 2011
1 Introduction

1.1. Definitions
In this public notice –
“BCD” means the Bermuda Customs Declaration;
“CAPS” means Customs Automated Processing System;
“CPC” means Customs Procedure Code;
“Customs Trader” means any person or company carrying on a trade or business which consists of or includes any of the following activities –
   a) importing or exporting any goods;
   b) handling, transporting or storing them;
   c) facilitating any activity mentioned in sub- subparagraphs a) or b);
“Declarant” means the person/company completing the BCD;
“DFD” means Duty From Deposit;
“HBL” means House Bill of Lading
“Importer” means the person/company actually bring in the goods; and,
“LIC” means a Local Inland Clearance warehouse;

1.2. Who should read this Notice?
This notice is relevant to individual (non-commercial) importers as well as commercial and institutional importers and freight agents — in short, anyone involved in importing/exporting freight

1.3. What is this Notice about?
This Public Notice 17 – Supplemental 4 should be read in conjunction with the main body of Public Notice 17. This Notice provides detailed guidelines for completing the BCD when dealing with a BCD Type: Adjustment. Persons interested in this Notice should also read the associated Public Notice 17 – Supplemental 3 on BCD Type: Deposit, as well as, Public Notice 17 – Supplemental 6 on BCD Type: Temporary Import.

Please see Public Notice 17 section 2 for guidance on the various BCD Types.

1.4. What is the relevant law?
In general, the laws pertaining to the importation and export of goods are the Revenue Act 1898 and the Customs Tariff Act 1970. More specifically, the Collector of Customs has the authority to determine the form of entry (BCD) under the provisions of section 14 and 16 of the Revenue Act 1898.

The law requires the Collector to publish the form of entry (BCD) in the Official Gazette so that everyone knows what entry form they have to fill in order to import or export goods.

The BCD was Gazetted on July 21st 2000 (GN No.573).

You may gain access to the above legislation and other Bermuda laws by visiting the Bermuda Laws Online website. www.bermulalaws.bm or by clicking on the “Legislation” link on the Customs Department website www.customs.gov.bm
1.5. **How do I obtain further information?**

2 Completion of Required Fields for BCD Type: ADJUSTMENT

2.1. Adjustment of a Deposit BCD where the goods where either imported directly from the Port of Arrival or from out of an LIC warehouse

This section deals with BCD Type: ADJUSTMENTS for an associated Deposit BCD, where the goods were originally imported either directly from the Port of Arrival or from an LIC warehouse, and a sample BCD for illustrative purposes is provided.

The Declarant that submitted the original Deposit BCD MUST be the Declarant for the Adjustment BCD. Failure to abide by this instruction can not only result in delays in processing your Adjustment BCD – which might result in a surcharge being imposed if proper entry is not completed within the 30 day time period – but will also cause mis-matching of funds within your Trader ID account.

All fields with M beside them are to be completed. Fields with O beside them are optional. Any fields that do not have a symbol next to them should be left blank. The following instructions provide for the proper minimum data requirements. If you feel it is necessary to provide further additional information on the BCD please do so – as long as the minimum requirements have been met. Immediately after the BCD sample you will find further details on individual BCD fields that may require specific data.

The BCD should be completed on the standard BCD (Customs Form No. 10 April 2000) and in accordance with the instructions for those fields that can be found in Public Notice 17 - Appendix A.

Bermuda Customs Declaration Guidelines: BCD Type - Adjustments
BCD Control Field: BCD Type Code for Imports

![Image](image1.png)

- BCD Type Code must be “A”.

BCD Control Field: Trader Reference

![Image](image2.png)

- Trader Reference number must be prefixed with – “A”.
- Followed by the full BCD 9-digit number assigned to the original Deposit BCD – A123456789.
- Then, depending on the number of BCDs being submitted to adjust the deposit, the Trader Reference number for the Adjustment will finish with the sequential number of the BCD being presented and the last BCD in the batch will finish with – “F”.
- Please see section 5.1 of this document for further guidance on the Trader Reference field for Adjusting BCDs.

Field 3: Transport Details

![Image](image3.png)

- The details in Field 3 must match those that were on the original Deposit BCD.

Field 4: Manifest Details

![Image](image4.png)

- The details in Field 4 must match those that were on the original Deposit BCD.
- If the goods were imported from out of an LIC warehouse then Field 4b must be completed.
Field 6: Warehouse Identification

- It is not necessary to complete Field 6 for Adjustment BCDs, as the Warehouse ID would have been provided on the original Deposit BCD.

Field 16: Customs Procedure Code Information

- CPC must be in the 4xxx series.
2.2. Adjustment of a Temporary Import BCD where the entire shipment is being exported from Bermuda

This section deals with BCD Type: ADJUSTMENTS for an associated Temporary Import BCD, where goods that were originally temporarily imported either directly from the Port of Arrival or from an LIC warehouse are to be exported from Bermuda, and a sample BCD for illustrative purposes is provided.

The Declarant that submitted the original Temporary Import BCD MUST be the Declarant for the Adjustment BCD. Failure to abide by this instruction can not only result in delays in processing your Adjustment BCD – which might result in a surcharge being imposed if proper entry is not completed within the 30 day time period – but will also cause mis-matching of funds within your Trader ID account.

All fields with MMMMM beside them are to be completed. Fields with OOOO beside them are optional. Any fields that do not have a symbol next to them should be left blank. The following instructions provide for the proper minimum data requirements. If you feel it is necessary to provide further additional information on the BCD please do so – as long as the minimum requirements have been met. Immediately after the BCD sample you will find further details on individual BCD fields that may require specific data.

The BCD should be completed on the standard BCD (Customs Form No. 10 April 2000) and in accordance with the instructions for those fields that can be found in Public Notice 17 - Appendix A.

3 Time Period for BCD Type: ADJUSTMENT

A BCD Type: Adjustment must be submitted to Customs within thirty (30) working days from the date the BCD Type: Deposit was released. The time period in regards to the proper adjustment of a BCD Type: Temporary Import will be driven by the CPC that was used on the original Temporary Import BCD. Please liaise with Customs if you are unsure of the allowable time period.

If it is likely that you will not have received sufficient information to make proper entry before the end of the prescribed period, or you wish to extend the period of temporary importation, you may make application in writing to the Collector of Customs stating the reason for the extension and citing the BCD number assigned to the deposit BCD. Applications received after the prescribed period has elapsed will not be considered.

4 Surcharge for late BCD Type: ADJUSTMENT

If the proper Adjustment BCD has not been submitted after thirty (30) working days has elapsed, a surcharge will be automatically imposed. At the time of submitting the proper Adjustment BCD the surcharge will be calculated at 50% of the duty that was calculated. Failure to submit the proper Adjustment BCD will result in a surcharge of 50% of the original deposit amount and may also result in the Trader no longer being able to submit BCD Type: Deposits. If the adjustment is still outstanding at the end of six months then the balance of the deposit will be paid into the general revenue.

It is important to note that the paying in of the deposit as a surcharge does not acquit your obligation to make proper entry and pay the duty. The Collector of Customs may sue for and recover the outstanding duty, together with full costs of suit before a court of summary jurisdiction in the manner provided by the Magistrates Act 1948.

5 Processing and Payment for BCD Type: ADJUSTMENT

5.1. Conditions on Processing a BCD Type: ADJUSTMENT

In order to process Adjustment BCDs in CAPS an importer must be aware of the following conditions:

- The Declarant that laid the original deposit BCD MUST be the Declarant for the adjustment BCD.
- An Adjustment BCD in CAPS MUST adhere to the following rules in regards to the completion of the Trader Reference field:
  - Trader Reference number must be prefixed with “A”
  - Followed by the full 9-digit BCD number assigned to the original Deposit BCD – e.g. A123456789
  - Then, depending on the number of BCDs being submitted to adjust the Deposit BCD, the Trader Reference number for the Adjustment BCD will finish with the sequential number of the BCD being presented and the last BCD in the batch will finish with “F”

  E.g. In the case of 1 Adjustment BCD, the Trader Reference number must read – A123456789/1F – signifying that only 1 Adjustment BCD is being submitted to adjust the original Deposit BCD 123456789.

  In the case of 3 Adjustment BCDs for a single Deposit BCD, the Trader Reference numbers must read –
A123456789/1,  
A123456789/2,  
A123456789/3F - signifying that 3 Adjustment BCDs are being submitted to adjust original Deposit BCD 123456789.

Multiple Adjustment BCDs for a single Deposit BCD must also be submitted to CAPS in sequence.

E.g. A123456789/1 must be submitted prior to A123456789/2; and, A123456789/2 must be submitted prior to A123456789/3F.

- Failure to adhere to the format of the Trader Reference number for Adjustment BCDs in CAPS can cause delays in the processing of your work, which could lead to the imposition of surcharges.

5.2. Payment Options for a BCD Type: ADJUSTMENT

An Adjustment BCD in CAPS must have the duty and wharfage paid in full from the Importer’s “Duty” CAPS Account - this type of account is referred to as a T-U Account, or Trader Current Account. The settlement of the duty and wharfage amount from the original deposit amount (known as DFD) is no longer allowed within CAPS.

Once the Adjusting BCDs have been successfully processed in CAPS, the original deposit amount is automatically returned to your internal account with Customs (based on your Trader ID number). You may leave the funds in your account for use against future deposits or you may request the money be returned by making application to the Customs financial controller.
