Project Scope

1. Introduction

- 1.1 The Bermuda Economic Development Corporation (BEDC) was established in 1980 as a joint venture between the Bermuda Government and three banks: Butterfield Bank, Bank of Bermuda, and Bermuda Commercial Bank. Its key objective is to assist the development of a strong, well-managed and successful small and medium business sector in Bermuda by providing existing and potential small and medium business owners with a broad range of business advice and financial assistance.
- 1.2 During its first decade of operation, BEDC provided general start-up guidance, bookkeeping advice and loan guarantees that served as collateral for bank loans for persons who may have otherwise been declined by a Bank. In the early nineties, as the small business landscape changed and grew from “mom and pop operations” to employing more persons, competition grew and market demands became more complex. BEDC began to offer low cost quarterly seminars and workshops to enable entrepreneurs to educate themselves on relevant topics such as managing cashflow; controlling expenses and overhead; and developing marketing plans and communication strategies.
- 1.3 Over the years BEDC has counselled thousands of Bermudians on starting, expanding, winding up, restructuring, buying, and/or selling a business. An average of 700 private business advisory sessions on an annual basis is offered covering numerous types of businesses.
- 1.4 BEDC’s free confidential counselling is offered one-on-one and has, in many cases, ended in the production of a business plan and a BEDC Loan Guarantee used to start a new business. To date, BEDC has supported in excess of \$20,000,000 (twenty million dollars) in bank loans through the Loan Guarantee Program, directly assisting close to four hundred businesses.
- 1.5 BEDC currently offers multiple products to assist entrepreneurs and business owners, but its financial products are based on providing Grade A sovereign guarantees for traditional bank loans and most recently, a line of credit through HM Customs.
- 1.6 BEDC is committed to promoting an awareness of its services, and to ensuring that it continues to successfully serve Bermuda’s local businesses. Towards this effort, BEDC wishes to conduct regular surveys of the general population.

2. Project Objective and Concept

- 2.1 Given the foregoing BEDC is seeking the services of an appropriately qualified consultant or consultant team to develop and administer a survey to the broader population.
- 2.2 BEDC normally conducts a Public Perception Survey every 2 years, but due to competing priorities, BEDC’s last public perception survey was conducted in 2008. Clearly there has been a significant gap in time in receiving formal feedback from the public about SME services and support in Bermuda. Moving forward, BEDC will aim to conduct this survey bi-annually.
- 2.3 The successful vendor will develop a response for the proposed project scope outlined below. The proposal should seek to address all elements of Sections 3 & 4 below.

3. Problem/Opportunity

- 3.1 BEDC is in the process of seeking quotes from providers to conduct a survey of the general population as it has no current data from the broader public on its perception of BEDC or business services in Bermuda.

- 3.2** Ultimately, this information assists BEDC in identifying changes that can be made to improve both its services, and its marketing and communication strategies. It will also provide direct insight into how BEDC can raise its awareness and outreach as well as deliver the right services and products to Bermuda's local business community.
- 3.3** The purpose of the survey will be to determine:
- Residents awareness of BEDC and its initiatives
 - Residents knowledge of BEDC's services and programs
 - Awareness and perceptions of BEDC marketing
 - Desires for business creation
 - The extent of micro, small, and medium-sized business ownership
 - Awareness of business services, associations, and organisations
 - Experiences using business support services in Bermuda
 - Opinions on business support
 - Demand for new products and services
 - Trends through comparison with previous surveys
 - Demographics of the survey population

4. Work Scope

The proposal should address the following:

4.1 Develop Survey Instrument

- 4.1.1** It is important that the survey be specific and relevant to BEDC.
- 4.1.2** The content and length of the survey will be established through a collaborative dialogue process between the consultant firm and BEDC. BEDC anticipates the survey comprising of no more than 60 questions.
- 4.1.3** The consultant firm shall provide options for data collection (i.e. telephone survey, email, online, mail outs, etc.) in the proposal indicating the pros and cons of each method as well as the costs variables all within the context of allowing BEDC to meet its due date.
- 4.1.4** The consultant firm shall document the framework, production, promotion, and implementation of the survey and all associated procedures and methodologies in order to facilitate a seamless transfer of knowledge from the consultant firm to BEDC.
- 4.1.5** Ease of data collection and cost effectiveness shall be important criteria in the consideration of any proposal.
- 4.1.6** The ability to replicate the survey in 2 years in order to establish trends shall also be an important criterion in the consideration of any proposal.

4.2 Survey the General Population

- 4.2.1** The survey should be broad enough to provide a wide cross-section of data. Although some BEDC clients may be surveyed the goal is to gain the broader population's opinions about BEDC and the business support environment.
- 4.2.2** BEDC considers it important to have an understanding of the demographics of the survey respondents in order to better create effective policies.
- 4.2.3** BEDC is asking the consultant firm to consider the existing information and any other relevant information BEDC might provide in order to develop an appropriate survey instrument.

4.3 Analyse Data

- 4.3.1** BEDC desires trend information and an analysis of the survey results compared with the previous survey.

- 4.3.2 The Consultant shall present the data from the survey in an electronically written, full-colour, professionally prepared and illustrated report with meaningful graphical illustration and analysis of the information.
- 4.3.3 BEDC reserves the right to request that the Consultant provide an oral presentation of the survey results as a way of better understanding the data.

4.4 Broad Recommendations

- 4.4.1 The analysis of the survey data should include policy recommendations for BEDC to consider in improving its marketing, outreach, and services.
- 4.4.2 The consultant firm should also make recommendations for improvement in the survey process and instruments for use in preparing for the follow-up survey in 2 years.

5 Deliverables

It is expected that the Consultant(s) bid package should provide costs for the following deliverables (at a minimum or explain variations to this listing). Costs should be broken down for each deliverable. It is expected that the Consultant will produce and submit at a minimum the following deliverables to the Bermuda Economic Development Corporation. The date for the deliverables will be negotiated after the successful vendor is selected and prior to a contract being signed.

- a) A proposal surveying the general public.
- b) A schedule/timeline of key stages in proposal development and timeline for delivery.
- c) A final presentation to BEDC.
- d) Ability to provide updates at regular intervals to BEDC and reviews at each critical stage with BEDC.
- e) Any other documents/information to enhance the work of BEDC in this area.

It is anticipated that the following contacts will need to be consulted during the development of vendor responses:
