

## INFLATION DECLINES

Consumers paid 1.6 per cent more in June 2018 than they did a year ago for the basket of goods and services included in the Consumer Price Index (CPI). The level of inflation decreased 0.1 percentage point from the 1.7 per cent measured in May 2018.

Between May 2018 and June 2018, the average cost of goods and services in the CPI decreased 0.1 per cent. The all-items index slipped to 105.0 in June. This means that the basket of goods and services that cost \$100.00 in April 2015 now costs \$105.00.

## YEAR-TO-YEAR ANALYSIS

On a year-over-year basis the Health & Personal Care sector was the largest contributor to the twelve-month increase in the CPI. The sector increased 4.1 per cent year-over-year.

The Education, Recreation, Entertainment & Reading and Food sectors also contributed to the rise in the annual rate of inflation, as price shifts in these sectors were 2.8 per cent and 1.9 per cent, respectively.

**Inflation Rate**  
**1.6%**

The compilation of the CPI involves the processing of several thousand price quotations. The Department of Statistics wishes to acknowledge the cooperation of the business community in supplying the required price data.

**MONTH-TO-MONTH ANALYSIS**

**Fuel & Power**

Following the 3.8 per cent increase in May, the Fuel & Power sector climbed 1.4 per cent in June. The fuel adjustment clause increased 4.3 per cent for the month.

**Tobacco & Liquor**

The Tobacco & Liquor sector increased 0.8 per cent in June. The average cost of beer advanced 2.4 per cent.

**Food**

The Food sector rose 0.2 per cent in June. The average cost of dining out increased 1.8 per cent.

**Rent**

The Rent sector remained unchanged in June.

**Health & Personal Care**

The Health & Personal Care sector remained unchanged for the month. The average cost of self-prescribed medicines (+0.2 per cent) was offset by the average cost of toiletries, cosmetics and perfumes (-0.3 per cent).

**Household Goods, Services & Supplies**

The Household Goods, Services & Supplies sector reported no price movement in June.

**Clothing & Footwear**

The Clothing & Footwear sector was static in June.

**Education, Recreation, Entertainment & Reading**

The Education, Recreation, Entertainment & Reading sector declined 0.1 per cent for the month. A 2.8 per cent jump in the cost of magazines was offset by declines in the average prices of pet food (-0.9 per cent) and recreational equipment (-0.8 per cent).

**Transport & Foreign Travel**

The Transport & Foreign Travel sector was down 1.8 per cent in June. Decreases were reported in the average cost of overseas hotels and air fares, down 7.6 per cent and 4.9 per cent, respectively.

**COMPUTING PRICE INCREASES**

The Department of Statistics receives calls daily requesting the rate of inflation over specific periods of time. The following calculations are provided to guide users as to how to compute rates of price increases. The monthly index numbers can be obtained from our website [www.gov.bm](http://www.gov.bm).

**A) Month-to-Month Price Change**

The price change between November and October, 2015 is calculated as follows:

$$= \frac{\text{Nov 15 index} - \text{Oct 15 index}}{\text{Oct 15 index}} \times 100$$

$$= \frac{100.5 - 100.6}{100.6} \times 100$$

$$= -0.1\%$$

**B) Year-to-Year Price Change**

The price change between December 2015 and December, 2014 is calculated as follows:

$$= \frac{\text{Dec 15 index} - \text{Dec 14 index}}{\text{Dec 14 index}} \times 100$$

$$= \frac{100.5 - 98.7}{98.7} \times 100$$

$$= 1.8\%$$

**C) Particular Period Price Change**

The price change between April 2014 and January, 2016 is calculated as follows:

$$= \frac{\text{Jan 16 index} - \text{Apr 14 index}}{\text{Apr 14 index}} \times 100$$

$$= \frac{100.3 - 98.3}{98.3} \times 100$$

$$= 2.0\%$$

## WHAT IS THE CONSUMER PRICE INDEX?

The Consumer Price Index (CPI) is a statistical tool used for measuring changes in the general level of prices of consumer goods and services purchased by private households.

The index measures price movements of a given quality and quantity of goods and services. The mix of these consumer goods and services comprising the index, are figuratively thought of as a “shopping basket.” In constructing this “shopping basket”, the selected goods and services are organized first by commodity type. They are then divided into sub-components and assigned to a major expenditure group. The Bermuda CPI is structured into nine expenditure groups or sectors:

- Food
- Rent
- Clothing & Footwear
- Tobacco & Liquor
- Fuel & Power
- Transport & Foreign Travel
- Household Goods, Services & Supplies
- Education, Recreation, Entertainment & Reading
- Health & Personal Care

## CONCEPTS AND DEFINITIONS

### Base Period

The time period which is used as a reference point for measuring the price change of goods and services. The base period for the Bermuda CPI is April 2015.

### Price Index Number

A single figure that shows how a set of prices has changed over a specified period of time. An index number on its own means nothing. It must be compared with an index number from another period to have meaning. For example, a comparison of the index number 97.2 for January 2014 with 100.4 for January 2016, reveals that prices have increased by 3.3 percent.

### Laspeyres Equation

The CPI is computed using this statistical equation. This formula calculates the total amount of money a household needs today to purchase the same basket of goods and services that it bought in the base period, April 2015.

## WEIGHTED AVERAGE

A mathematical formula that takes into account the relative importance of an item’s price change compared to the overall change in the sector or CPI.

### Inflation

Inflation is the process of rising prices, resulting in diminishing purchasing power of a given sum of money.

### Cost of Living Index

Many individuals refer to the CPI as a cost-of-living index. The CPI is an index of pure price change only. A cost-of-living index reflects the changes in buying or consumption patterns that consumers would ordinarily make to adjust to any change in the price of a good or service.

### A COMPARISON OF RATES OF INFLATION (%) Selected Countries & Bermuda

|                                   | 2014 | 2015 | 2016 | 2017 | Jun 18 |
|-----------------------------------|------|------|------|------|--------|
| <b>Bermuda</b>                    | 2.0  | 1.5  | 1.5  | 1.9  | +1.6   |
| <b>United States<sup>1</sup></b>  | 0.8  | 0.7  | 2.1  | 2.1  | +2.9   |
| <b>Canada<sup>2</sup></b>         | 2.0  | 1.1  | 1.4  | 1.6  | +2.5   |
| <b>United Kingdom<sup>3</sup></b> | 2.4  | 1.0  | 1.8  | 3.6  | +3.4   |
