

# Economic Activity Survey User Guide

### **About the Economic Activity Survey**

#### What is the objective?

The objective of the Annual Economic Activity Survey (EAS) is to develop a range of statistics, suitable for comparing the relative economic performance of all industrial divisions of the Bermuda economy.

The EAS is the instrument used by the Department of Statistics to collect key economic information from a broad range of businesses and organizations in both the private and public sectors of the economy. These institutions include incorporated businesses, schools, restaurants, sports clubs, hotels, religious entities, public bodies, small unincorporated enterprises, and international companies.

A greater level of macroeconomic data about the changing economy is needed by business entities that aim for continuous growth. Reliable and relevant economic data enhance the quality of decision making in the public and private sectors.

The Annual Economic Activity
Survey is conducted under the
authority of the Statistics Act
2002, and hence your response
is required by law.

### NOTE: Include LOCAL as well as OVERSEAS expenditures and income

#### How will this be done?

The Department of Statistics will conduct its Annual Economic Activity Survey during the months of March and April each year. All businesses with 7 or more employees are automatically selected for the survey. A representative sample of businesses with 6 or less employees will be randomly selected to participate in the Survey. The total sample size is approximately 1,500 businesses. Data from the Survey will be used to calculate the total output of goods and services for

Bermuda using the statistical measure Gross Domestic Product (GDP). GDP will be analyzed according to the industrial sectors of the economy. Final estimates of GDP by industry will be released by the Department nine months after the reference year.

#### Data Collection

The EAS is an annual survey. The survey questionnaires are emailed and mailed to the sampled enterprises approximately three months after the end of the previous calendar year. The survey is directed to the financial reporting department and is to be completed by the chief financial officer or a senior reporting officer.

The purpose of this **User Guide** is to assist you in completing your specific industry questionnaire. The EAS questionnaire resembles a **profit and loss statement** / **income statement** that most businesses prepare for their own financial purposes. Business activities across the economy are extremely diverse, resulting in the utilization of a variety of unique financial reporting variables. To accommodate the diversity in financial reporting across industries, fifteen different versions of the survey questionnaire are used.

The deadline to complete and return the questionnaire is **April 30**<sup>th</sup> of the survey year. For MAC computer users, if your system does not use Adobe Reader PDF, you may download a free version through this link: <a href="https://get.adobe.com/reader/">https://get.adobe.com/reader/</a> Respondents can reply to the Department of Statistics by email, mail or fax (see front page of questionnaire for contact information).

#### Non-respondents / Late returns

Timely responses are critically important to the accuracy and usefulness of the statistics collected. Late responses to the survey cause delays in the release of the data; therefore, it is essential that you respond on time.

During the second week of April a reminder notice will be sent to those who have not yet responded. Respondents that do not meet the April 30<sup>th</sup> deadline will be contacted via telephone to discuss their reporting delinquency.

### **Frequently Asked Questions**

#### 1. What is the purpose of collecting this data?

The purpose of collecting this data is to determine the total value of all goods and services produced in the Bermuda economy, by its domestic resources. The aggregate is called Gross Domestic Product (GDP).

### 2. Do other countries collect this type of information?

Yes, like most countries, we conduct this survey in accordance with the guidelines and methodologies as stipulated by the United Nations System of National Accounts.

### 3. How was I selected for the Economic Activity Survey?

All firms with seven or more employees are automatically selected for the survey. If your firm has less than seven employees you were chosen from a computer-generated sample of businesses. Taking a sample is less costly than contacting every business in the country. Your firm represents many other businesses like your own.

### 4. Is the data collected by the Economic Activity Survey kept confidential?

**Section 7** of the **Statistics Act 2002**, protects the confidentiality of data collected under the authority of the Act. Questionnaires are only handled by employees of the Department of Statistics who are sworn to secrecy.

### 5. Will the data collected be shared with other Government Departments?

In order to avoid duplication in collection, the sharing of data at the aggregate level with other Government Departments is permitted. **Section 10 Subsection (2)** of the **Statistics Act 2002**, however, prohibits the sharing of information which can be linked to a person, business or organization without the written consent of the person, business or organization.

### 6. What is the penalty for not responding to the Survey?

**Section 15** of the **Statistics Act 2002**, renders anyone who refuses or neglects to provide information as required to do so, guilty of an offence and liable on conviction by court a fine not exceeding \$1,000. If failure to provide the information is continued, a further offence is liable of \$1,000 each day until the information is provided.

**7. How can I get help to complete the questionnaire?** Call our office and ask to speak to one of our Statistical Officers at 297-7894, 297-7610, 297-7829 or e-mail us at <a href="mailto:eas@gov.bm">eas@gov.bm</a>.

### 8. Is responding to the Economic Activity Survey mandatory?

Yes, the law requires your response. **Section 11** of the **Statistics Act 2002** requires persons, businesses and organizations to supply the required information in the form and manner indicated by the due date April 30<sup>th</sup>.

### 9. Why do you need my information if I'm a very small business?

Taken together, small businesses have a significant impact on the economy. This sector of the economy has grown significantly in the last few years. Your business was randomly chosen from a sample of businesses. It represents businesses which have the same economic activity. As such, we need your participation.

### 10. I am not in the profit making business. Why have I been sent a questionnaire?

Any institutional unit, whether it be a church, school, registered charity, professional club, or business, which engages in the exchange of goods and services contributes to the growth of the economy. When a transaction occurs, output in the economy is impacted in some way. Hence, your participation is required.

# 11. The first page of the questionnaire asks for the principal business activity. Our company has three different types of businesses. What should be reported in this space?

In cases where there is more than one business activity, state the one which generates the most revenue for the business or if each type of business is a profit centre, submit a completed questionnaire for each type of business activity.

#### 12. What is a sample survey?

A sample survey is the process of gathering information about a large number of people/businesses/ organizations by interviewing a select group of them. The sample is selected to represent the total group. Not only does this reduce the cost of surveying everyone, but also lightens the burden on the group as well.

### 13. Can businesses use their computer to report?

Yes! We send the surveys out via email which can then be completed and forwarded to us via return email.

14. Can business owners/financial officers visit the Department of Statistics or conduct an interview over the telephone to complete their survey? Yes! We have officers available to assist you with this process if it is needed.

Record the value of computer software and databases at the beginning of the year, if these items are expected to be used in production for more than one year. Database values consist of files of data organized in such a way as to permit resource-effective access and use of the data. The development of software and databases can be valued at the sum of the costs to produce those items. Under acquisitions, record any purchases of packaged software and database management systems, any additions to the value of own-account produced software and databases and the purchase of customized software. Disposals include any software or databases sold and should be valued at their market prices. Exclude: computer maintenance and repair (see Item P2700), rental and leasing of computer equipment (see Item P2630).

#### P5121 - Other intellectual property products

Other intellectual property products include any such products that constitute fixed assets but are not already captured in P5119 – Research and development and P5120 – Computer software and databases. These assets can include mineral exploration and evaluation; entertainment, literary and artistic originals; and other intellectual property products not specified above. **Entertainment, literary and artistic originals** consist of the original films, sound recordings, manuscripts, tapes, models, etc. on which drama performances, radio and television programming, musical performances, sporting events, literary and artistic output etc. are recorded or embodied.

#### P5122 - Non-Produced (non-financial) assets

These assets included natural resources such as land, mineral and energy resources, water resources, noncultivated biological resources, contracts, leases and licences, goodwill and marketing assets. Please note that the value of land excludes any buildings or other structures situated on it or running through it. It also excludes any cultivated crops or trees. Contracts leases and licences are treated as assets only if the terms of the contract, lease or licence specify a price for the use of an asset or provision of a service that differs from the price that would prevail in the absence of the contract, lease or licence. Additionally one party to the contract must be able legally and practically to realize the price difference. The category of contracts, leases and licences can include marketable operating leases, permits to use natural resources, permits to undertake specific activities and entitlement to future good and services on an exclusive basis. Goodwill reflects the value of corporate structures and the value to the business of an assembled workforce and management, corporate culture, distribution networks and customer base. Marketing assets consist of items such as brand names, mastheads, trademarks, logos and domain names.
