

Q3 | 2016

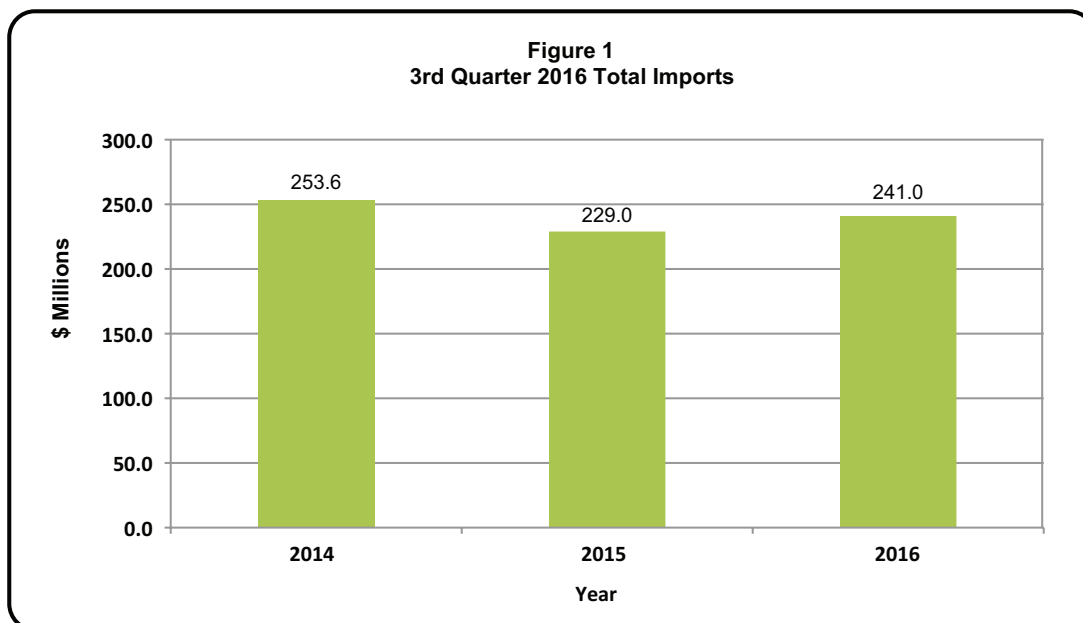

GOVERNMENT OF BERMUDA
Cabinet Office
Department of Statistics

Quarterly Bulletin of Statistics

Q3 2016 Highlights

Imports

- Total imports increased 5.2 per cent to \$241.0 million. There were increases in five of the nine commodity groups. The largest increase of \$4.7 million was recorded in the finished equipment imports category (See **Figure 1**; **Table 1**). There were also notable increases in imports of machinery which rose \$4.0 million and imports of food, beverages and tobacco which grew by \$3.3 million.
- Imports from Bermuda's largest trading partner, the United States, rose 16.6 per cent to \$173.5 million during the third quarter. Imports from the "all other countries" category also increased. In contrast, the value of imports decreased from Canada, the United Kingdom and the Caribbean (See **Table 2**).

Employment Income by Industry

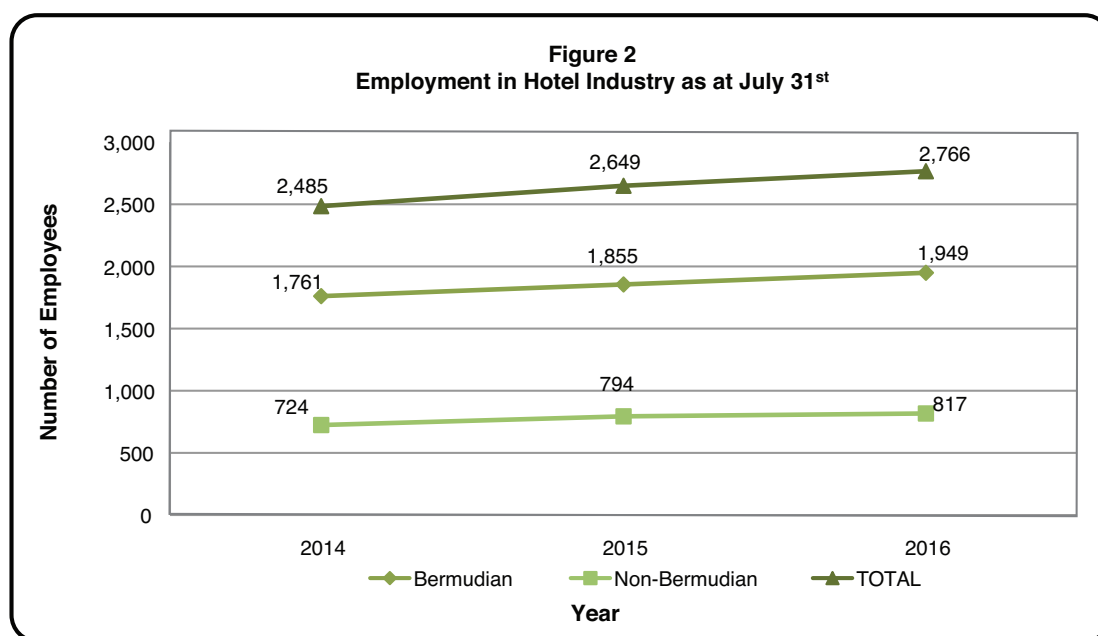

- Employment income weakened 1.4 per cent or \$10.7 million. The international business sector recorded the largest decrease in remuneration of \$12.9 million due partly to lower stock options paid to employees (See **Table 3**).

Arrivals and Expenditure

- The Island hosted 86,948 air visitors during the third quarter of 2016, an increase of 13.7 per cent year-over-year (See Table 4). Estimated total expenditure by air visitors rose 29.3 per cent to \$124.2 million compared to the same period of 2015. Visitors spent \$18.9 million more on accommodation and food, while expenditure on shopping, entertainment and transport services was \$9.2 million higher. (See Table 5).
- A total of fifty-five cruise ships visited the Island carrying 190,333 passengers (See Table 4). Total expenditure for these passengers was estimated at \$32.0 million (See Table 5). In comparison, fifty-four cruise ships visited Bermuda's ports during the same period in 2015 with \$31.3 million being spent by cruise visitors.

Employment in Hotel Industry and Hotel Gross Receipts

- At the end of July 2016, there were 2,766 workers employed within the hotel industry (See Figure 2). The level of employment increased by 117 employees, representing 94 Bermudians and 23 non-Bermudians.

- Hotel gross receipts totaled \$102.5 million. This represented an increase of 4.7 per cent or \$4.6 million (See Table 6). The rise in receipts was due to increases in room, food and alcohol sales.

Overseas Declarations by Residents

- Overseas declarations by residents slipped 6.4 per cent to \$14.9 million (See Table 7). All nine commodity groupings declined with the largest decrease of \$0.4 million reported for the clothing and footwear category.
