

Government of Bermuda
Ministry of Home Affairs

FILING A SATELLITE NETWORK THROUGH BERMUDA

Summary of Requirements

To file a satellite network with the ITU through Bermuda, an applicant must submit a proposal to the Ministry of Home Affairs that includes at least the following information, required by Regulation 5 of Bermuda's Satellite Network Notification and Coordination Regulations:

- Corporate and commercial information.
- Technical details of the network in the ITU's electronic format.
- Proof that the applicant is a body corporate, incorporated in Bermuda.
- Proof of the necessary technical, financial and legal capabilities to carry out the proposed project in conformity with the project timetable.
- Undertaking to pay Bermuda's and the ITU's administrative charges.

The applicant should read the Satellite Network Notification and Coordination Regulations for a thorough understanding of the information required, and the Ministry can provide a form or template if needed.
