PATI Information Statement

Name of Public Authority: War Pension Commissioners

Introduction:

The Public Access to Information Act (PATI) 2010 was developed to give the public the right to obtain access to information held by public authorities; to increase transparency with regard to these authorities; to increase accountability held by public authorities; and to update and inform the public on the activities and decision-making of these authorities in a sustained and consistent manner.

To aid the provision of information to the public, the Public Access to Information (PATI) Act 2010 requires that each public authority prepares an Information Statement. The purpose of the Information Statement is to provide people wanting access to information held by a public authority a 'window' of the types of documents held by that public authority, what that public authority does, and how a person can access the information they require.

The War Pensions Commissioners Information Statement will make the following information available to the public as part of its normal business activities:

- Structure of the organization, and governing legislation;
- Functions, powers, duties and obligations;
- Summary of services provided;
- Name and contact information of the person designated by a public authority as the person to whom requests for information are to be directed;
- Additional information to aid accessing Information Statement;
- Means of logging concerns or complaints or concerns about accessing information.
