Introduction

This document is the Information Statement for the Environmental Authority. In accordance with the Public Access To Information (PATI) Act 2010, every public authority has a legal duty to maintain an Information Statement.

The purpose of the PATI Act and this document is to make information readily available to the public without the need for specific written requests, to encourage authorities to proactively publish information and to develop a culture of openness. Every person who is a Bermudian, or resident of Bermuda, has a right to access any record held by a public authority, and a right to amend their personal information held by a public authority if it is incorrect or misleading. However, several classes of information are exempt, including: Personal information (unless it relates to the requestor); Sensitive commercial, information received in confidence; Operations and deliberations of Public Authorities; Cabinet, Ministerial and Governors documents; and Legal documents. All exemptions are subject to the public interest test, except those that would be in contempt of Court, infringe Parliamentary privilege or are prohibited by other legislation [for more information see sections 21 to 40, PATI Act].

How to make a request

Requests for information, or to amend your personal information, must be in writing using the application form, and submitted to the Ministry Information Officer (see Section G for contact details). A request must identify the record, the subject and time period, and may specify the manner in which access is preferred. Please note there is a small fee levied for reproducing materials (as per the Government Fees Regulations 1976, and as listed on the application form).

Application forms for the public or companies to apply for:
- Construction Permits,
- Operating Licences,
- Chemical Import/Export Permits,
- Chemical use/release Permissions and
- Water Rights

are available at the:
- Department of Environment and Natural Resources (DENV) offices Botanical Gardens, Paget or
- Government Administration Building (GAB), Hamilton or
- www.gov.bm

The fee payment amount is shown on the application forms from the above locations and is consistent with the Government Fees Regulations 1976 (www.bermudalaws.bm).

The transaction can be completed by the applicant at the licencing clerks located at either; (i) DENV or the (ii) GAB or (iii) via posting the completed application and cheque to the Environmental Authority, PO Box 834, Hamilton, HM CX.

The Environmental Authority considers the above application forms with the required supporting material at its; (i) monthly meetings (Last Thursday in the month), (ii) extra-ordinary meetings or via (iii) email meetings coordinated by the Environmental Engineering Section of DENV.

The Environmental Authority considers objections after a 2 week advertised period for Construction Permits for new Controlled Plants and associated rebuttals from the applicants. For re-issues the Environmental Authority also considers complaints from neighbours, exceedances of standards and whether any conditions of the Operating Licences, Permits or Water Rights were not met over the preceding licence periods.

All of the above considerations of the Environmental Authority reflect in the types of conditions applied to the appropriate licence, permit or water right and also determine whether the Authority may or may not grant the licence, permit or water right. Decisions by the Authority
are decided by a majority voting decision of the members present, once there is a quorum (\textit{i.e.} 3 or more Authority members).

**Section D: Records held [s5(1)d]**
